THE PATH TO COP26

As an organisation founded in Scotland and committed to sustainable finance, having the world come to Glasgow in November 2021 for COP26 has inspired GEFI to launch a campaign that enables our stakeholders to come together to amplify their commitment to climate finance. For more details, see pathtocop26.com. The campaign aims to assist financial institutions to:

- Showcase their commitment and existing efforts towards climate finance at COP26.
- Accelerate practical efforts by helping to identify and connect with relevant climate standards and initiatives and encouraging adoption of these.
- Connect and share knowledge to address industry challenges and showcase existing efforts.
